

The 2022 Initiative – Interim Target for the 2030 Agenda

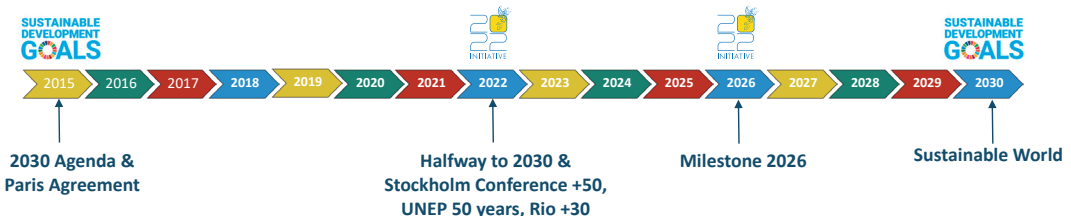

The 2022 Initiative aims to accelerate the global work on the 2030 Agenda, including the Paris agreement, through interim goals by 2022, an interim Conference and Sustainability Games in Stockholm and around the world in June 2022.

Conferences connected globally

Why 2022?

To accelerate the implementation of the 2030 Agenda and hold today's leaders accountable, we need milestones and **Interim Targets**. The year 2022 is **halfway to 2030**. 2022 is also the **50th Anniversary** of the **United Nations Conference on the Human Environment** held in Stockholm 1972, the world's first UN conference on sustainable development, and **50 years since the formation of UNEP**, today UN Environment.
